

STAGING FOR *selling.* STAGING FOR *living.* REDESIGN.

## Meet Your Home Stager

*Adrienne Gligoric*

Certified Professional Home Stager & Home Stylist  
Owner, The STAGING HOUSE Burlington

A local Hamiltonian, Adrienne's professional career began when she joined the financial industry in 1987. Most recently, she was the Vice-President at a major independent financial firm where she covered everything from recruiting and training, strategic planning, budgeting, policies, communications and HR-related projects.

Outside of Bay Street, Adrienne has always had a talent for improving function, flow, and design of spaces. She found herself helping friends, families, and colleagues make their homes feel more like home. Whether it was styling a home to appeal to a buyer, or creating a dream living space, Adrienne had homeowners falling in love with their home all over again.

In 2016, Adrienne decided it was time to move her passion project forward and get professionally certified to stage and decorate homes. She graduated from Certified Staging Professionals (CSP) Training with honours. She is also a member of the Real Estate Agents Staging Association.

Adrienne is now the Lead Stager and Owner of The STAGING HOUSE in Burlington, Ontario. Adrienne has brought her knowledge of business, talent for design, and client first approach to the home staging industry in your community.

Her mission for The STAGING HOUSE is to maximize the function, flow and design in homes from Niagara to Toronto. Our goal is to have potential buyers emotionally connect with your home, therefore minimizing your days on the market.
